

9. Position paper on Circular Economy

Purpose:

- To inform policy makers- EU and national, visitors to website, members and potential new members of our commitment to Circular Economy
- Discuss and define feasibility of working together on certain project.

Next steps

- Some feedback received which will be taken into account:
- Open questions:
- Set targets:
 - a) tonnage targets
 - b) timeline targets
- How to proceed further

- Being an independent source of information on the circular economy and developments within this
- Developing best practice guidance based on practical industry wide collection trials in different countries across Europe. – **by 2023**
- Undertaking trials and research on recycling technologies and disseminating information to our members - **ongoing**
- Taking the lead on standardisation with regard to circular economy. - **ongoing**
- We want to become leaders in the circular economy within the flooring sector and beyond, providing a blueprint for other sectors. **By 2025 (is this quantifiable)?**
